Multi-branch records synced to central cloud

Owner Live Console
Instant visibility on attendance & work hours

It starts with *one touchless check-in.*

An employee arrives at work. They look at the kiosk terminal — *verified in 0.5s* with zero touch. Their attendance is recorded with precise timestamp and GPS site location. Their productive day begins. Meanwhile, the business owner doesn't have to maintain a register, collect messages, or calculate punch records.
